3. EVALUATION AND CONTRACT NEGOTIATION

3.1 Evaluation of proposals

The Bank has established a team to evaluate the proposals. All decisions as to the degree to which a proposal meets the requirements of this RFP will be made by the evaluation team.

The Bank will conduct the evaluation of proposals in the following stages:

Stage 1. Mandatory submission requirements

Stage 1 will consist of a review to determine which proposals comply with all the mandatory submission requirements. If a proposal fails to satisfy all the mandatory submission requirements, the Bank may issue the proponent a rectification notice identifying the deficiencies and providing the proponent an opportunity to rectify the deficiencies. The rectification period will begin to run from the date and time that the Bank issues a rectification notice to the proponent. If the proponent fails to satisfy the mandatory submission requirements within the rectification period, its proposal will be rejected.

The mandatory submission requirements are set out in section 4.3 RFP Particulars – Mandatory submission requirements.

Stage 2. Evaluation

Stage 2 will consist of the following three (3) sub-stages:

a. Mandatory criteria

The Bank will review the proposals to determine whether the mandatory criteria as set out in section 4.4 RFP Particulars – Mandatory criteria have been met. Failure of the proponent to meet any of the mandatory criteria will result in their proposal being disqualified.

b. Minimum qualification requirements

The Bank will review the proposals to determine whether the minimum qualification requirements as set out in Appendix C1 / C2/ C3 (as applicable) have been met. Failure of the proponent to meet the minimum qualification requirements will result in their proposal being disqualified.

c. Rated criteria

If compliant with the applicable mandatory criteria and minimum qualification requirements, the Bank will evaluate each qualified proposal based on the non-price rated criteria as set out in section 4.5 RFP Particulars – Rated criteria and Appendix D1/D2/D3 (as applicable).

Stage 3. Presentation/Demonstration (virtual)

As part of the evaluation process,

- up to seven (7) top-ranked proponents for service category 1; and
- up to nine (9) top-ranked proponents for service category 3

May be invited to presentations with the Evaluation Committee. These presentations will validate proponents' ability to deliver the required services and will be assessed on a pass/fail basis. Proponents may not disclose pricing information at this stage. Presentations will not be required for service category 2.

Stage 4. Pricing

Stage 4 will consist of a review and scoring of the submitted pricing of each qualified proposal in accordance with the price evaluation method set out in section 4.6 RFP Particulars – Price evaluation method. The evaluation of price will be undertaken after the evaluation of mandatory requirements and non-price rated criteria has been completed.

If a proponent's pricing appears to be abnormally low in relation to the deliverables, the Bank may require the proponent to provide a detailed explanation of the pricing information to account for the low level of price and confirm that all requirements in respect of the deliverables have been taken into account. The Bank also reserves

the right to require contract security in the form of a performance bond. If the proponent is unable to satisfactorily account for the abnormally low pricing, the Bank may reject the proposal.

Stage 5. Cumulative score

At Stage 5, the scores from Stage 2, Stage 3 and Stage 4 will be totalled and, subject to the terms of this RFP, the highest-scoring proponents within each service category will be invited to negotiate agreements based on the Form of Agreement in Appendix F, if reference checks are successful. In the event of a tie between proponents, the selected proponent will be decided by way of the highest score on the rated criteria.

The proponents with the highest final cumulative scores within the applicable categories or overall evaluation will be identified as the selected proponents.

For clarity, awards will be made on a category-by-category basis. A proponent is not required to be the highest ranked across all categories to be selected.

3.2 Contract negotiation process

The selected proponent(s) will be notified and invited to enter into contract negotiations. The standard terms and conditions for Bank agreements are set out in Appendix F and form the basis for negotiations between the Bank and the selected proponent(s). If negotiations are not successful within a reasonable time, the Bank may, in its sole discretion, discontinue negotiations and enter into negotiations with the next-highest-ranked proponent. The Bank may move to subsequent proponents as many times as necessary to finalize a contract, or until the Bank elects to cancel the RFP process.

Prior to the commencement of, or, at the discretion of the Bank, concurrent with, the contract negotiations, the selected proponent(s) may be required to complete a third-party vendor risk assessment with questions and/or document requests related to risk areas as part of the Bank's third-party risk management process.

3.3 Time period for negotiations

The Bank intends to conclude negotiations and finalize the agreement with the top-ranked proponent within a period of thirty (30) calendar days, commencing from the date the Bank invites the top-ranked proponent to enter negotiations. A proponent invited to enter into direct contract negotiations should be prepared to provide all requested information in a timely fashion and conduct its negotiations expeditiously.

3.4 Notification to other proponents

Once contracts are executed by the Bank and proponents, the other proponents will be notified directly in writing or will be notified by public posting of the outcome of the procurement process when applicable.

3.5 Debriefing

Proponents may request a debriefing after receipt of a notification of the outcome of the procurement process. All requests must be in writing to the Bank of Canada contacts and must be made within fifteen (15) days of such notification.

3.6 Procurement protest procedure

If a proponent wishes to challenge the RFP process, it should provide written notice to the Director of Procurement of the Bank. The notice should be sent to the following address: info_procurement@bank-banque-canada.ca.

Proponents must complete the applicable appendices for each service category for which they are submitting a proposal, using the format provided. This may include Appendix D1, Appendix D2, Appendix D3, or any applicable combination.

Proponents will be evaluated only for the service category or categories for which they submit a response.

4.6 Price evaluation method

Pricing is worth 25 points of the total score.

Price will be evaluated separately for each service category for which a proponent submits a proposal. Proponents will only be evaluated for the service category(ies) for which they submit a complete technical and pricing response.

For each applicable service category, proponents must complete Appendix D – Pricing Form and provide an Evaluated Category Price based on the standardized pricing scenario set out in Appendix D. The Evaluated Category Price must include all fees, charges, subscriptions, licences, access costs, advisory costs, implementation or onboarding fees, and any other costs required to deliver the scenario for the applicable service category.

Proponents may propose different models, fee structures, bundles, or service packages. However, for evaluation purposes, each proponent must price the same standardized scenario for each service category proposed. Where a proponent's model includes certain services at no additional cost, the proponent must identify those services as included and assign a \$0 incremental cost in the pricing breakdown.

The Bank will calculate the Evaluated Category Price for each applicable service category using the completed Appendix E – Pricing Form. The Evaluated Category Price will be based on the total cost of the standardized scenario over the initial three-year term. Option-year pricing, including maximum annual percentage increases, may be considered for affordability and contract planning purposes and may be used in the evaluation if expressly identified in Appendix E.

For each service category, pricing points will be calculated using the following formula:

$$\text{lowest evaluated category price} \div \text{proponent's evaluated category price} \times 25 \text{ points} = \text{proponent's pricing}$$

score for that service category

Prices will be evaluated on a category-by-category basis. A proponent is not required to submit pricing for all service categories. A proponent that submits pricing for more than one service category will receive a separate price evaluation for each applicable category.

The standardized pricing scenario is for evaluation purposes only and does not constitute a commitment by the Bank to purchase any minimum volume of services, licences, consultations, document reviews, conference passes, or related services. Actual requirements may vary during the term of any resulting agreement.

The Bank may seek clarification of pricing where required to confirm the completeness, consistency, or application of the pricing submitted. Clarifications will not permit a proponent to revise its pricing or materially alter its financial proposal, except where expressly permitted by the RFP.

All travel and related expenses, if applicable, will be subject to the Bank's guidelines.

Proponents must **not** include pricing information in any other portion of its proposal.

 - 1.1 having, or having access to, information in the preparation of its proposal that is confidential and not available to other proponents;
 - 1.2 communicating with any person with a view to influencing preferred treatment in the RFP process;
 - 1.3 engaging in conduct that compromises, or could be seen to compromise, the integrity of the open and competitive RFP process and render that process non-competitive and unfair;
2. in relation to the performance of its contractual obligations contemplated in the contract that is the subject of this procurement, the proponent's other commitments, relationships or financial interests could, or could be seen to:
 - 2.1 exercise an improper influence over the objective, unbiased and impartial exercise of the proponent's independent judgment;
 - 2.2 compromise, impair or be incompatible with the effective performance of the proponent's contractual obligations.

Proponents must clearly state in their proposal that:

1. there was no conflict of interest in preparing its proposal; and
2. there is no foreseeable conflict of interest in performing the contractual obligations contemplated in the RFP;
3. **OR**, if there is a conflict of interest, proponents must provide full details on the nature of the conflict of interest and any steps taken to mitigate it.
